WORK EXPERIENCE

RWS Group, Remote — *Freelance Search Quality Analyst*

January 2025 - August 2025

- Evaluated search engine results, webpages, and digital content for relevance, accuracy, quality, and trustworthiness using established evaluation guidelines.
- Analyzed user search queries and search intent to assess result effectiveness and overall user experience.
- Applied structured quality assessment procedures while meeting accuracy, productivity, and performance standards.
- Provided structured feedback to support search algorithm improvements and enhance search result quality.
- Maintained confidentiality and complied with project-specific policies and data-handling requirements.

Amazon India, Hyderabad — *Compliance & Risk Analyst*

January 2022 - September 2024

- Solid experience in product quality analysis, escalation management, and regulatory compliance within a global e-commerce environment.
- Managed high-risk escalations involving senior leadership and legal teams.
- Enhanced team productivity through machine learning solutions.
- Worked cross-functionally with legal, engineering, supply chain, and quality control teams to address compliance challenges.
- Automated validation processes using machine learning and analyzed data trends to drive efficiency improvements and reduce case inflow.
- Proactive risk mitigation, regulatory research, and stakeholder management across internal teams and external sellers to ensure smooth international operations and high customer satisfaction.

Genpact, Hyderabad — *Process Associate (Escalation Specialist)*

February 2020 - January 2022

- Supported user safety and account recovery processes involving Instagram and Facebook.
- Investigated escalations and collaborated with relevant teams to resolve complex cases.
- Analyzed operational trends and contributed to process improvements and reporting.

STACK

Proficient: Python, Django, JavaScript, SQL, MySQL, Git, AWS,
